# Educational Program: Traditional Program One

## Monthly Donations for: Aged Out Orphans and Street Children

This program is for individuals who had to drop out of school, did not earn the marks to graduate, or chose this track personally.

We can train these individuals in the following areas:

- Carpentry, Dress Making, Plumbing, Welding, and more programs coming soon!

These programs are six months in duration. The students will earn a certificate of completion, allowing them to work under those in their career fields.

Monthly Payment to Unafaa: \$65

This provides daily transportation, all materials, and a meal each day.

EVERY ORPHAN MATTERS

## Educational Programs

### Sponsorship Programs for Aged Out Orphans

In partnership with Comboni Polytechnic  
in Gilgil, Kenya

## About Comboni Polytechnic:

Comboni Polytechnic has produced competent graduates in the following technical and professional fields:

- Motor Vehicle Mechanics & Auto Electric
- Electrical Installation Technology
- Building Construction - Masonry & Plumbing
- Painting & Signwriting
- Carpentry & Joinery
- Garment Making & Tailoring
- Fashion and Design
- Hairdressing and Beauty
- Information Communication Technology (ICT)

## Mission:

To fulfill the mission of Christ by facilitating the alleviation of human suffering and improving the welfare of the youth through providing training and employment opportunities.

## Vision:

Comboni Polytechnic will be an agent of change that will empower the socially and economically poor and marginalized youths.

## Unafaa's Educational Programs Overview:

Many orphans have successfully completed their Secondary Education with no plans for sustainable living after 18. Many are left hopeless back on the streets as they are too old to be in the orphanages but lack the tools, education, training, and certificates to be on their own. The New Hope Campus will be able to provide housing for these individuals as they finish their educational programs for sustainable living.

Your sponsorship will be a 2-3 year committee depending on the individual's age, maturity, or lack of understating in their career field choice.

**Option One:** the individual will start immediately in their education program - 2 year commitment.

**Option Two:** the individual will work with Unafaa as an apprentice for 6-12 months before starting their educational program.

## Motor Vehicle Mechanic & Auto Electric ~ New Program Two

- Course Duration: 2 years
- Total Cost for Certification: \$1,080
- Monthly Payment to Unafaa: \$45

### Program Description:

Skills obtained in this trade will make the trainee competent in the motor vehicle industry, both in the formal and informal sectors. The department has a modern garage with computerized motor vehicle diagnostics equipment. Trainees get in touch with actual work practice in the ever-busy production unit.

## Electrical Installation Technology ~ New Program Two
